RAILWAY OPERATIONS

UNION LEAGUE CLUB
CHICAGO, IL
DATES TBA 2023

OVERVIEW

A stand-alone module of the established and highly respected **Railway Management Certificate Program**, this residential five-day program covers the strategy and management of railway operations for both freight and passenger railways. We combine classroom presentation of concepts with discussions led by rail industry subject matter experts, with site visits to see these topics in context. **Railway Operations** brings together many aspects of the complex railway ecosystem.

KEY LEARNING OBJECTIVES

By the end of the program, participants will:

- Better understand the importance of Chicago to today's complex rail network and learn how traffic flow is managed
- Learn about different operating models and practices, for dedicated and mixed traffic applications
- Examine dispatch/control centers and communications
- Visit passenger and freight operating venues in Chicago
- Understand major freight customer requirements and operations integration
- Learn about locomotive and rail car availability, maintenance, and design implications for managers
- Improve understanding of lease vs. buy options
- Learn how better decision-making improves performance
- Hear first-hand from a Wall Street analyst about the current state of the freight rail industry

WHO SHOULD ATTEND?

- Railroad superintendents, trainmasters, and middle managers from engineering and technological functions with capacity to perform at higher levels
- Managers/leaders requiring learning opportunity beyond their experience who have had limited business administration education
- Shippers needing to learn about the business of railroading to build better relationships to improve performance
- Suppliers to the rail industry wishing to learn about the business of railroading to improve communication and understanding
- Staff of rail agencies, regulators, policy bodies, and state/local government.

TENTATIVE SCHEDULE
