Subject: Broad College of Business Dean search update

Dear Broad College of Business Community,

I am writing with an update on plans to identify the next dean for the Broad College of Business.

After thoughtful consideration and evaluation of the needs of the university and the college, I have made the decision to move forward with the search for the next dean. I anticipate having the search committee seated and charged this fall and your input will be welcomed and valued throughout the search process. Over the coming weeks, you will be provided opportunities to share your thoughts on key skills and competencies needed from the next leader.

I want to extend my sincere appreciation to Interim Dean Judy Whipple for the leadership she continues to provide for the college. I also want to recognize and commend the work of the faculty, academic staff, and support staff of the college. Your continued input and engagement are critical in helping the college advance its mission of developing global transformational leaders.

Sincerely,

Thomas

Thomas D. Jeitschko (he/him)
