

GRADUATE PROGRAMS

MASTER'S IN PROFESSIONAL ACCOUNTING AND ANALYTICS

Our in-person **MASTER OF SCIENCE IN PROFESSIONAL ACCOUNTING AND ANALYTICS (MPAA)** program equips students from diverse backgrounds (non-accounting) with technical accounting knowledge and data analytics skills that are in high demand in organizations in all sectors of the economy. This M.S. program is designed for students without an accounting background, and we will cater your study plan to your professional needs.

DESIGNED TO BE CUSTOMIZABLE

No Accounting Background?

- Bachelor's degree in any field accepted.
- Six Accounting Foundations Courses (18 credits)
- Accounting Analytics (3 credits)
- Choose a concentration (9 credits)
- Finish in as early as 12 months

DESIGNED TO BE FLEXIBLE

- ▶ **Access** to the Russell Palmer Career Management Center and highly sought-after major.

- ▶ **Four concentrations**
 - Accounting Analytics
 - Managerial Analysis for Decision Making
 - Taxation
 - Transaction Services

- ▶ **Prepare you for the CPA Exam** as courses can apply toward education requirements for CPA licensure.

The M.S. in Professional Accounting & Analytics has been designed to provide maximum opportunities for our students and is perfect for those looking to change career paths and enhance their skillsets. Our world-class faculty have developed a curriculum that prepares students for today's most in-demand business roles.
