See the Destination Survey introduction for additional information on each outcome category.

**Figure 1**  
Unplaced 12%

**Career Outcomes Rate - 88%**

Of the 101 students who identified the type of employment chosen, 101 (100%) indicated their position was either a) career-related (92 = 91%), b) a stepping stone toward their ultimate career goal (0 = 0%), or c) work that allows them to explore career options (9 = 9%). A list of organizations that hired graduates in 2018 can be found in the appendix.

### Salary Information

One hundred twenty-two (122) of the graduates that indicated full-time employment also reported salary information. Of these, seventy-three (73) graduates reported receiving a signing bonus.

Table 3 - Highlights the method that graduates identified as the way they found current job. Graduates could select more than one option and not all graduates responded. 119 responded to this question. \*MSU software environment used by students to connect with employers.

## Geographic Distribution

A total of 217 graduates reported their employment location. Of those, 47% (101) were employed in Michigan and 74% (160) reported employment in the Midwest. In addition, of the one hundred eighty-seven (187) students originally from Michigan that reported their employment location, 49% (92) were employed in Michigan and 75% (141) reported employment in the Midwest.

## Continuing Education

Of the seventeen (17) students that reported continuing their education as their main pursuit immediately after graduation, fifteen (15) reported the specific degree pursued. Graduates who indicated employment as well as continuing education were excluded from this table. This information is self-reported and may lead to slight inaccuracies when it comes to certification. *See appendix for a listing of universities attended for continuing education.*

## Co-Curricular Activities

The survey also includes questions about co-curricular activities in which students may have participated during their college career. All students were asked to indicate their involvement in a list of career related activities while at MSU (or a previous institution in the case of transfer students) regardless of their destination outcome.

One hundred forty (140) students responded to this section. Table 5 shows the percentage of students that indicated each activity.

Table 6 aggregates the types of experiences from Table 5 into five categories of activities. Superscript letters indicate the activities in Table 5 that are incorporated into each category. Students are only counted once for each category even if they participated in more than one indicated activity.

Department of Supply Chain Mgt - Table 5		
Co-Curricular Activity Participation by 2018 Graduates		
Activity	#	%
Co-op/Intern - for credit <sup>a,b</sup>	54	39%
Co-op/intern - non-credit <sup>a,b</sup>	90	65%
Research - PA/Project/Summer - MSU <sup>a,b</sup>	9	8%
Research - PA/Project/Summer - non-MSU <sup>a,b</sup>	2	2%
Service Learning/Volunteer Project - MSU <sup>a,f</sup>	39	33%
Service Learning/Volunteer Project - non-MSU <sup>a,f</sup>	18	15%
Study Abroad - MSU program <sup>a,d</sup>	41	33%
Study Abroad - non-MSU program <sup>a,d</sup>	2	2%

Department of Supply Chain Mgt - Table 6		
Supplemental Experiences		
Experience	#	%
Out of Classroom Experience <sup>a</sup>	134	96%
Career Based <sup>b</sup>	132	95%
Study Abroad <sup>d</sup>	42	34%
Research <sup>e</sup>	11	9%
Volunteer <sup>f</sup>	51	43%

Table 6 - Superscript letters link supplemental experience programs to co-curricular activities in Table 5 and graduates can select more than one type of experience. For instance, a student that did both an MSU and a non-MSU study abroad program (indicated with <sup>d</sup>) in Table 5 would only be counted once towards study abroad in Table 6.

Superscript letters link co-curricular activities to supplemental experience programs in Table 6. Graduates could select more than one option.
