Of the 25 students who identified the type of employment chosen, 25 (100%) indicated their position was either a) career-related 25 (100%), b) a stepping stone toward their ultimate career goal 0 (0%), or c) work that allows them to explore career options 0 (0%). A list of organizations that hired graduates in 2019 can be found in the appendix.

Salary Information

29 of the graduates that indicated full-time employment also reported salary information. Of these, 12 graduates reported receiving a signing bonus.

Table 3 - Highlights the method that graduates identified as the way they found current job. Graduates could select more than one option and not all graduates responded. 22 responded to this question. *MSU software environment used by students to connect with employers.

Geographic Distribution

A total of 42 graduates reported their employment location. Of those, 62% (26) were employed in Michigan and 76% (32) reported employment in the Midwest. In addition, of the 33 students originally from Michigan that reported their employment location, 70% (23) were employed in Michigan and 85% (28) reported employment in the Midwest.

Continuing Education

Of the 105 students that reported continuing their education as their main pursuit immediately after graduation, 104 reported the specific degree pursued. Graduates who indicated employment as well as continuing education were excluded from this table. This information is self-reported and may lead to slight inaccuracies when it comes to certification.

For simplicity, percentages have been rounded to the nearest point.
Cumulative percentage totals were calculated with floating point decimal places in the addends.

Co-Curricular Activities

The survey also includes questions about co-curricular activities in which students may have participated during their college career. All students were asked to indicate their involvement in a list of career related activities while at MSU (or a previous institution in the case of transfer students) regardless of their destination outcome.

73 students responded to this section. Table 5 shows the percentage of students that indicated each activity.

Table 6 aggregates the types of experiences from Table 5 into five categories of activities. Superscript letters indicate the activities in Table 5 that are incorporated into each category. Students are only counted once for each category even if they participated in more than one indicated activity.

MSU Table 5			MSU Table 6		
Co-Curricular Activity Participation by 2019 Graduates			Supplemental Experiences		
Activity	#	%	Experience	#	%
Co-op/Intern - for credit ^{a,b}	22	31%	Out of Classroom Experience ^a	70	96%

Table 6 - Superscript letters link supplemental experience programs to co-curricular activities in Table 5 and graduates can select more than one type of experience. For instance, a student that did both an MSU and a non-MSU study abroad program (indicated with ^d) in Table 5 would only be counted once towards study abroad in Table 6.

Superscript letters link co-curricular activities to supplemental experience programs in Table 6. Graduates could select more than one option.
