Table 3 - Highlights the method that graduates identified as the way they found current job. Graduates could select more than one option and not all graduates responded. 354 responded to this question. \*MSU software environment used by students to connect with employers.

**Geographic Distribution**

A total of 710 graduates reported their employment location. Of those, 45% (317) were employed in Michigan and 71% (502) reported employment in the Midwest. In addition, of the 572 students originally from Michigan that reported their employment location, 51% (289) were employed in Michigan and 75% (430) reported employment in the Midwest.

## Continuing Education

Of the 182 students that reported continuing their education as their main pursuit immediately after graduation, 181 reported the specific degree pursued. Graduates who indicated employment as well as continuing education were excluded from this table. This information is self-reported and may lead to slight inaccuracies when it comes to certification.

<b>Total</b>	<b>181</b>	<b>100%</b>

For simplicity, percentages have been rounded to the nearest point.  
Cumulative percentage totals were calculated with floating point decimal places in the addends.

## Co-Curricular Activities

The survey also includes questions about co-curricular activities in which students may have participated during their college career. All students were asked to indicate their involvement in a list of career related activities while at MSU (or a previous institution in the case of transfer students) regardless of their destination outcome.

558 students responded to this section. Table 5 shows the percentage of students that indicated each activity.

Table 6 aggregates the types of experiences from Table 5 into five categories of activities. Superscript letters indicate the activities in Table 5 that are incorporated into each category. Students are only counted once for each category even if they participated in more than one indicated activity.

Table 6 - Superscript letters link supplemental experience programs to co-curricular activities in Table 5 and graduates can select more than one type of experience. For instance, a student that did both an MSU and a non-MSU study abroad program (indicated with <sup>d</sup>) in Table 5 would only be counted once towards study abroad in Table 6.

Superscript letters link co-curricular activities to supplemental experience programs in Table 6. Graduates could select more than one option.
